This technical drawing is an exploded view of a mechanical assembly, likely a lamp or light fixture. It shows various components arranged in a hierarchical manner, with lines indicating their assembly relationships. The parts are numbered 1 through 19. The assembly is organized into five horizontal sections labeled A, B, C, D, and E. Section A contains the upper mounting bracket and arm components. Section B shows the central pivot and adjustment mechanisms. Section C includes the main body and internal structural parts. Section D features the lamp head assembly, including the lens, reflector, and mounting base. Section E shows the lower mounting and support components. The diagram uses standard mechanical drawing conventions, including circles for fasteners and lines to show the flow of assembly from the base up to the lamp head.
