- (1) This table Shows our standards. The number of needle (per inch) may change according to kinds of fabrics and amount of differential ratio.
- (2) The eccentric for DCZ-400, -401, -403, -420, -420W and -421 are standardized to W6~W20.
- (3) These small eccentrics such as W100 are provided for the use of special purposes.

Relation Between Feed (Differential) Dog & Feed Eccentric Cam

- A Feed eccentric cam for Feed (front) dog
- B Feed eccentric cam for Feed (back) dog

- ☒ indicates that these cams are to be used for a combination of front feed dog 32877 (or 32881) and back feed dog 32878 (or 32882).
- ☒ indicates that these cams are to be used for combination of front feed dog 32885 and back feed dog 32886.
- ☐ indicates that these cams may be used combination of front feed dog 32880 (or 32884) and back feed dog 32878 (or 32882).
- ☒ indicates that these cams may be used for all combinations of feed dogs described in (2), (3) and (4).

Above schedule shows the relation between feed eccentric cams and combinations of feed dogs for DCZ-400 series. In selecting feed cams, care must be taken so that they may be appropriate for a given combination of fee dogs with which the machine is equipped.
